

What should you do DURING your airbrush tan session?

During an Airbrush Tan

- Wear whatever you feel comfortable in – (females) bathing suit, underwear, bra or nude
- Please note: any clothing worn during an airbrush spray tan session will leave tan lines
- Men ***MUST*** wear underwear or a bathing suit
- Because the skin on your hands and feet is not very porous we do not directly spray those areas. These areas have a tendency to turn orange and blotchy, the over spray from the rest of your body will give it just the right amount of color to look natural and blend in.
